

Loneliness, isolation, helplessness, boredom — this is what so many seniors experience day after day.

You can make a difference!

Circle of Care is dedicated to ending the plague of isolation and loneliness for the older adult by providing accessibility to the arts and the community.

We connect the rich cultural resource in Boulder County with those citizens in most need of a "cultural respite" and community engagement.

We provide transportation, tickets and companions to the finest cultural events for

low and moderate income seniors, the homebound, senior facility residents, faith communities, hospice, and those with cognitive, physical or financial challenges. We partner with a vast array of community organizations to fulfill our mission. Our services are provided at no cost and depends on you and our community to make it possible.

What you can do:

- Partner with Circle of Care, and let us be your philanthropic arm.
- Create an ongoing giving campaign in your company to assist our mission.
- Donate an in-town home or ample office space for our cultural center/meeting place.
- Volunteer your time and talents to join the most exciting, inclusive and creative non-profit community in Boulder County.
